A Buggy Ride.

Is It a Pleasure?

That depends largely upon the vehicle in which the ride is taken. If the vehicle is old, if it rattles and jars, and if the draft is heavy, much of the pleasure is lost. But if it has the ball bearing axles, rubber tires, patent springs and other improvements of the HIGH GRADE, UP-TO-DATE vehicle, then it is a pleasure indeed.

We are showing a new line of High Grade Bikes and Pneumatic Buggies, Runabouts, Traps, Phaetons, Surreys, Speeding Carts, Bikes, etc. Also a full line of Harness, Whips, Robes, Lamps, Rugs, Shades, etc.

Rubber Tires

We have added to our equipment a complete RUBBER TIRE outfit, and are now prepared to put on all sizes of Rubber Tires. New Channels and Rubbers put on, or old Channels re-rubbed. We use the "KELLY-SPRINGFIELD" TIRE (two wire), the best and most satisfactory Tire made.

FOOLISH JAP JUMPED OFF TRAIN FOR HIS HAT.

NOW HE LIES UNDER THE SOD BY THE SAD SEA WAVES AT WAILUKU.

The American Ship Bangalore Has Trouble With Crew When Leaving Port—Lighters for Kahului.

[Special Correspondence.]

KAHULUI, Maui, September 8.—We had one of our Japs killed here yesterday. One of a number of new hands employed during the past few weeks, was detailed under charge of a luma to proceed to Wailuku with some freight on the cars and arrived same there. All went well on the up trip and the gang was being carried back to Kahului upon a couple of open flat cars drawn by a locomotive. When near the crossing at the main road on the Kahului beach, the fellow's hat blew off and the silly fool jumped off the car after it, although they were traveling at between ten and twelve miles an hour.

The man struck the ground upon his head and never stirred after. When the train was brought to a standstill and backed up to the scene his body was lifted upon the car and brought on to Kahului and the police at once notified of the occurrence. An examination showed that one side of his head was completely crushed in like an egg shell, and besides that he had a terrible gash on the other side, besides a broken neck. The police, in the shape of Deputy Marshal Hayekiden and a couple of aides, took charge of the body and after examining same and also a number of witnesses, decided that no blame was attributable to the trainmen, and that under the circumstances no inquest was necessary. The body was buried at Wailuku.

The American ship Bangalore sailed August 7th for Philadelphia with a short-handed crew, only twelve Japs instead of eighteen white men. She had trouble when leaving port, and a not too pleasant voyage for those interested in prophesied by the knowing ones here. While being towed to sea her second mate got into trouble with the Jap quartermaster, and blows were freely exchanged for some time until the Japs, seeing their man was likely to get laid out, promptly armed themselves with belaying pins and capstan bars and floored the mate, who went to sea with a very serious mauling from them. She sailed out of sight of the pilot boat with further trouble manifest on board. Captain Blanchard will certainly have a bad time if nothing more.

The ship Wachusett, Captain Lambert, is now 120 days out from New-castle for this port, with coal. It is feared that she has been lost. Captain Lambert was accompanied by his wife. The steam launch Talula is here doing towboat duties until the new tug for the Kahului Railroad Company arrives. The new boat is being built at San Francisco and is to be used for towing lighters, general harbor work and light towing. She is to be equipped with all the latest ideas, including a searchlight, powerful pumps and water tanks for ballast and for carrying water to vessels in port.

The Kahului Railroad Company is making rapid strides since the new owners took charge. Three new lighters are being built, making ten in all; also a number of new cars are under way, as well as new passenger coaches, first and second class.

Picturesque.

A very charming view of the new warehouse and mill of the Union Feed Co. at Kakaako is in McInerney's window. In the background is seen the hills and coconut trees. In the foreground is the surf and natives on surf boards and canoes. The picture is a very good representation of Kakaako, as it might have appeared fifty or sixty years ago. The architect is Mr. Swain of San Francisco.
